Trades Association. Would you stand and be recognized. The
next speaker is Senator Sieck.

SENATOR SIECK: Mr. President, members of the body, I agree
with Senator Chambers that this bill needs to be killed and
I   am disappointed   that   I   took   the   position   in   the
Constitutional Revision Committee and wrote it out of
committee. I should have took the position there and maybe
it still would be there but I have a change of heart and I
don't think that we need to take this to the people of the
State of Nebraska. We are here to give guidance to the
people and I think this is a poor thing to do as far as this
issue is concerned and I feel that the quicker we lay it
aside, the better it is at this time.   It is wrong and I
don't think it is going to succeed regardless of what
happens with this particular kill motion. I just don't feel
that this particular issue is going to pass and be allowed a
vote of the people. So I would like to just lay it aside
and hope that we indefinitely postpone this bill.   Thank
you.

SENATOR LAMB: The Chair recognizes Senator Beyer.

SENATOR BEYER: Mr. Speaker and colleagues, I rise to oppose
Senator Chambers' motion. Senator Chambers has some very
persuasive arguments but I guess my argument was that I
introduced this bill on behalf of the Silver-haired
Unicameral after they had duly debated it. They had talked
about it at a lot of senior citizen centers and they were
looking   for   some   true   property   tax   relief.   I
think...assuming right now that most of the Senators seemed
to think that this would pass by a vote of the people. I
still think the only way you are going to know is if it goes
to a vote of the people so I would oppose the kill motion at
this time. Thank you.

SENATOR LAMB: Senator Withem, on the motion to indefinitely
postpone.

SENATOR WITHEM: Mr. Chairman, members of the Legislature, I
rise to support the kill motion, less out of deep commitment
on the issue, more out of tidiness I guess because I feel
that LR 10 at this point really is not needed. Probably
when it was introduced last session it was an excellent
